ABSTRACT

This bibliography of library materials is provided to aid librarians and teachers in selecting, locating, and obtaining information about New Jersey for classroom use. The subject matter is wide and varied, offering materials on history, geography, the environment, folklore, literature, social issues, past and present, and the people. Briefly annotated to clarify nondescriptive titles, this single listing of print and nonprint materials includes films, filmstrips, slides, transparencies, pamphlets, maps, realia, records, and reel and cassette recordings. Fictional and nonfictional treatments are noted as well as suitability for grade levels; some out of print titles are listed and so noted. Not included due to space limitations are some biographies of historical figures such as Burr, Franklin, Greene, Hamilton, Lafayette, Pitcher, Washington, Wayne, and Witherspoon, and local histories. A list of sources is appended to help locate elusive titles. (RAA)

Introduction

This bibliography, a revision of the 1973 edition of **New Jersey in the Classroom,** is designed to serve as a beginning in your search for materials about our state. New Jersey is all around you. Your local organizations, your municipal problems, and most important of all your own enthusiasm.

The purpose of this bibliography is to provide librarians and teachers with the information necessary for selecting, locating, and obtaining New Jersey material for classroom use. It was compiled as a timely, useable list rather than as a scholarly, exhaustive one.

This edition includes K-12 materials. Print and non-print materials are in a single listing; annotations are given only if the titles are not self-explanatory. Since prices change so rapidly, this information has not been included.

It should be noted that biographies of historical figures (such as Burr, Franklin, Greene, Hamilton, Lafayette, Pitcher, Washington, Wayne, Witherspoon) and local histories also involve New Jersey history. Many of these were not included in this list due to lack of space.

A suggested list of sources for government publications and pamphlet materials is included to help make this elusive material easier to obtain.

Out of print titles are included in the general list with the notation **O.P.** which indicates that these titles were not in the latest **Books In Print.** If the title seems especially desirable try contacting the individual publishers.

The following abbreviations are used throughout this bibliography.
